It will be observed in the figures which follow, that wells numbered 11 and 12, which appear in the production for 1946, are not included in the 1947 production. In 1947, for reasons of convenience, the oil staff of the Soviet Petroleum Administration reorganized the wells, removing 11 and 12 from Wintershall and assigning them to the jurisdiction of the ITAG management. Figures for 1947 cover the period January through October.
